

Criminology – Level 3

Part A: Research the following and create a powerpoint presentation covering definitions and examples.

The Broken windows theory – briefly explain this theory.

Differential association theory – by Sutherland. Briefly explain this theory.

Define these types of crime and give examples:

State crime

Green crime

White collar crime

Hate crime

Part B: Pick one real life crime to research. Cover the following also in a powerpoint:

What happened in the crime?

Which laws have been broken?

What are the possible causes of this crime?

Which punishment did the criminal receive?

What are your views on the punishment for this crime? Is it suitable?

Could the crime have been avoided in your opinion?
